Money for collection (branch service)	3.00% (min 15)

3. The Bank is obligated by law to hold a tax at source of 10% over the bank interest. All rates above are effective and nominal in EUR. The Bank does not provide savings accounts in USD. For existing savings accounts in this currency no interest is calculated over the deposited money. For the existing clients who only have savings accounts in EUR, the interest rate on deposited money is 0.01%. The earned interest is credited in the savings account on annual basis.

4. The Bank provides time deposits over the amount of 10,000 EUR. The interest rate for deposits with automatic renewal of maturity (1,3,6,9,15,18,48,60 month) which are no longer offered, is 0,01% effective from 1 December 2017.

5. In case of closing the time deposit before maturity, the principal of the deposit is not touched under any circumstance.

6. These are standard limits that may be changed via m-banking and in cases when limits specified in this table are not applicable.

7. All commissions for cards and card limits are valid for the digital wallet too.

8. When withdrawing funds from ATMs abroad, in addition to the ProCredit bank tariffs, additional commissions may be applied by the banks or institutions that provide the service.

9. Based on the Regulation for the Usury of Loan Instruments, CBK published on regular six-month basis data on the reference rate as part of the usury. Find the reference rate in the following link: <https://bqk-kos.org/financial-supervision-2/banking-supervision-2/late-payment-on-credit-instruments/?lang=en>

The formula to calculate late payment:
The principal of usury x usury x number of late days) Example:
(500 Eur x 0.033% x 4 late days) = 0.66 Eur
If the client pays during the first three days after being late then the penalty shall not be calculated.
If the client is late for more than 3 days the penalty shall be calculated for the entire period the client was late.

10. The return of the online payment is excluded from this tariff.

11. Includes the 'P2P Debit' transactions.

12. This commission is not applied for foreign cards issued by the ProCredit bank network, transactions that will be processed by the Quipu Processing Centre (QPC).

13. Applicable only for cards issued outside of Kosovo in a currency other than the Euro.

Transfers / National transfers ^{14, 15, 16}	e-Banking	Degë

Loans obtained with cash		up to 100% of the deposit value	According to the type of loan	Not applicable	1.50% above the deposit interest rate		4,45%	0%
Eco Loans	0.30% less than the standard interest rate, for each type of loan						6,11%	0,20%

Prepayment Provision
1). For loans with a combined interest rate (fixed + variable) and for loans with a variable interest rate, no prepayment provision is applied.
2). For loans with a fixed interest rate, the following applies: <ul style="list-style-type: none">- If the period between the prepayment of the loan and its regular maturity is over one year, you will pay the unpaid principal plus 1% of this principal- If the period between the prepayment of the loan and the regular maturity of the loan does not exceed one year, you will pay the unpaid principal plus 0.5% of this principal
3). For Residential Mortgage Loans, the prepayment provision is applied, according to the following rule: <ul style="list-style-type: none">- If the borrower submits a request for loan closure in the first year, five percent (5%) of the principal amount.- If the borrower submits a request for loan closure in the second year second, four percent (4%) of the principal amount.- If the borrower submits a request for loan closure in the third year, three percent (3%) of the principal amount.- If the borrower submits a request for loan closure in the fourth year, two percent (2%) of the principal amount.- If the borrower submits a request for loan closure in the fifth year, one percent (1%) of the principal amount.- No penalty fee will be charged after the fifth year."
4). The provision for prepayment of loans is applied to mortgage loans according to the terms specified in the respective loan contract.

OVERDRAFT²⁶

Types of overdraft	Amount	Fixed	Variable	Fixed period	Variable period	Effective rate	Administrative Expenses
Secured with cash	up to 100% of the deposit value	up to 36 months	Not applicable	5,00%	Not applicable	5,12%	0,00%

Standard - Basic Package (including the vulnerable category)	up to three times the net monthly salary	up to 36 months	Not applicable	12,29%	Not applicable	13,01%	0,00%

Additional information about loan services

1. As of March 10, 2017, the bank no longer offers loans with a variable interest rate that is based on the WAIR index, an index calculated based on the weighted average annual interest rate of the bank's time deposits. The bank will continue to publish here: <https://www.procreditbank-kos.com/shq/rreth-nesh/publikimet-financiare/indeksi-wair/> the reference rate of the WAIR index (Weighted Average Interest Rate) until the settlement of the last loan that uses this index.
2. The effective interest rate is calculated in accordance with the guidelines of the regulation on effective interest rate and disclosure requirements, issued by the Central Bank. For the calculation of the NEI, the nominal rate for the fixed period, maximum administrative expenses, maximum duration are taken into account. Meanwhile, any changes that may occur are due to the date taken as the starting point for the calculation and consequently this guides the inclusion/non-inclusion of the leap year in the duration of the loan.
3. For the calculation of the effective interest rate (NEI) of credit exposures covered by cash, the WAIR index of time accounts for December 2024, respectively 2.86%, is taken into account and 1.50% nominal interest rate for this product is added to it, as well as the maximum maturity of investment loans. For the calculation of the effective interest rate (NEI) of EKO Credit credit exposures, the nominal rate for the fixed period of investment loans (minus 0.30% as a result of the EKO investment), the maximum administrative expenses and the maximum maturity for these loans are taken into account.
4. Property valuation fees vary depending on the type of property being valued and are paid by the loan applicant. For more information, contact the bank.
5. EURIBOR is the abbreviation of Euro Interbank Offered Rate and refers to the interest rate based on the supply and demand of money in the European market as well as based on daily quotes sent by the largest European banks. When clients take out loans with a variable interest rate linked to Euribor, they should take into account possible changes in Euribor, which ProCredit Bank applies every six months for the duration of the loan.
6. Based on the Regulation on Default Interest on Credit Instruments, the CBK publishes on a regular six-monthly basis data on the reference rate as part of the default interest. Find the reference rate in the following link <https://bqk-kos.org/mbikeqyrja-financiare/mbikeqyrja-bankare/kamatevonesat-ne-instrumentet-kreditore/>
Formula for calculating late payment: Late principal x daily late interest x number of days late Example: (500 Eur x 0.033% x 4 days late) = 0.66 Eur If the client pays during the first three days after being late then the penalty will not be calculated. If the client is late for more than 3 days the penalty will be calculated for the entire period that the client was late.

26. Apart from the utilized principal and interest for the days used, the bank does not apply additional reserve early repayment of overdraft.

Accounts in USD ²⁷	Tariffs
Opening, maintaining and closing the current account in USD. Issuing, maintaining and mailing the debit card. Authorization for the current account, only at the time the account was opened.	2.00 USD
